SETTING

Besides characters, authors also have to let the reader know the setting (WHERE the story takes place). The author includes clues about the setting. Part 2 takes place in Crystalopolis. List below some clues (& page numbers) you found about the setting, and then draw the your idea of the setting (use pencil, then color in with colored pencils), based on what you learned. You may choose just one part of Crystalopolis: city, outside the palace, inside the palace, or courtyard to describe and draw.
